Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-6 and 9-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Hale et al (US # 4,420,052). See the PCT search report.
4. Claims 1-6 and 9-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Laimins et al (US 4,482,783). See the PCT search report.
5. Claims 1-6 and 9-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Brainerd, Jr. et al (US # 5,033,563). See the PCT search report.

Art Unit: 2841

6. Claims 1-6 and 9-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Bella (US # 2,990,899). See the PCT search report.

7. Claims 1-6 and 9-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Capaldi et al (US # 5,809,591). See the PCT search report.

8. Claims 1-6 and 9-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Marchand (FR # 2,679,331). See the PCT search report.

Claim Rejections - 35 USC § 103

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

10. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hale et al (US # 4,420,052) in view of Stevenson et al (US # 5,065,830). The stretcher shown in figure 1 of Hale seems to be a cloth web that extends between two rigid poles; such a stretcher is common and is collapsible lengthwise. Even if not, Stevenson shows that it is known to make a stretcher that is foldable in order to save space when not in use, and it would have been obvious to the ordinary practitioner for the same reason.

11. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hale et al (US # 4,420,052) in view of Bourgraf et al (US # 3,635,079). Hale does not expressly show suspending a stretcher that can be dismantled. However such stretchers are known as shown by the example of Bourgraf. It would have been obvious to the ordinary practitioner to hang any known stretcher from the weighing frame of Hale motivated by its known suitability for its intended use. See *MPEP* §§ 2144.06 & 2144.07.
